SECRET SHELVES

Paul and Deirdre's living room is clean and minimal, and it's able to stay this way thanks to their oak veneer panelled walls, which open with a touch to reveal floor-to-ceiling shelving. These provide ample storage for the family's belongings, including their extensive book collection. "Built-in storage allows for a clutter-free home," explains Lisa Richmond from Noel Dempsey design. "Hidden storage behind doors or panelling gives loads of space, and it's great to put unsightly items away. Something to consider when getting built-in storage is the size of items you want to store. This will determine the depth and spacing your shelving needs to be." You should also consider each object's use when allocating shelf space. "Less-used items can be stored at a height whereas those that are used more often should be easier to access." noeldempsey.com
